

Marine Maintenance Systemsm for Yacht Managers

The SeaKits Marine Maintenance Systemsm (MMS) is a comprehensive maintenance management solution that helps owners optimize the safety, reliability, performance, and value of their yacht. Called an "owner operators dream", MMS won Best New Boating Product at the 2007 Newport International Boat Show. *MMS for Yacht Managers* is a unique approach to offering your customers a value-added service while providing you with incremental revenue and a differentiator in a crowded market.

Features

- Premium Service

Benefits to the Yacht Owner

- Safety and Reliability
- Enhanced Performance
- Value Preservation

Pricing

End-user pricing is determined by the Yacht Manager. SeaKits provides MMS to the Yacht Manager at a discounted turnkey cost with annual renewal fee. Pricing includes system maintenance, new features, and technical support.

Getting Started

Following a demonstration on how MMS for Yacht Managers can help your business, an agreement is executed and the first yacht(s) are identified. The Yacht Manager provides the equipment baseline (walkdown services are available to assist) and SeaKits delivers a turnkey MMS for the yacht(s). The Yacht Manager is trained and ready to deliver expanded and value-added services to its customers.

About SeaKits, Inc.

SeaKits, Inc. was founded in 2006 by a submarine service veteran and USCG Licensed Master who wanted a better way to outfit and maintain his own yacht for extended cruising. The Marine Maintenance Systemsm and other services are available direct from SeaKits and from leading boat builders and yacht managers. For more information, contact Barry Kallander at barry@seakits.com.
